

INTRODUCTION

two or three concise bullets covering background, motivation, and study objective

METHODS

EXPERIMENT OVERVIEW FIGURE

inputs → OpenVLA-OFT → reuse strategies → LIBERO evaluation

MODEL | BENCHMARK | INPUTS | METRICS | HARDWARE

RESULTS

FIGURE 1: COMPLETE VISUAL-PREFIX REUSE

large success-versus-skipped-refresh plot with a short explanatory caption

FIGURE 2: SCENE-CAMERA REUSE

success and latency visuals with a direct caption

FIGURE 3: FINE-GRAINED INTERNAL REUSE

controlled timing and closed-loop success shown separately

DISCUSSION & CONCLUSION

CLOSED-LOOP FEEDBACK FIGURE
brief interpretation followed by the final evidence-based conclusion

LIMITATIONS

EVIDENCE BOUNDARY
checkpoint, benchmark, hardware, populations, and limits on generalization
